

Gentek Composite Lign Align Siding – Product Features

Design Versatility

With its 2 popular profiles, realistic woodgrain texture and 20 designer inspired on-trend colors, ALIGN Composite Cladding lets you customize to your style while leaving a lasting impression.

Profiles

ALIGN is available in 2 popular profiles, 12" Board & Batten and 7" Plank.

12" Board & Batten

ALIGN 12" Board & Batten recreates the authentic details of this time-honored profile, but in a high-performance composite cladding of superb durability, aesthetics and value. The distinctive vertical appearance of the 10" board and 2" batten imparts custom-crafted elegance, whether used as an architectural accent or the entire home exterior.

Available in two textures: Matte and Woodgrain

7" Flat Plank Profile

Featuring a tall 7" profile that provides a high-end appearance to help deliver a higher value to your home. A realistic woodgrain appearance drives a stunning and striking look.

Available in a Cedar Mill Grain texture:
